

CONNECT

What do you want to find out?

The event:

By attending these online events, you'll meet Gaming professionals, Games developers, Games designers and Gaming casters.

Each event is different. You will learn from Gaming professionals about how they got to where they are today, and learn how video games are developed, designed, coded and all the parts that connect the industry together.

You will be able to ask the professionals any questions you may have.

You will do this during an event with the support of your Teacher or email these before the event.

What we would like you to do?

1. In pairs think of some questions that you would like to ask the Gaming professionals that you will hear from.
2. Then as a class choose the 3 questions you think are the most interesting.
3. Email the 3 questions by Friday 11th June
employer.engagement@education.govt.nz

Here are some examples to get you started:

- What do you like about your job?
- How will technology affect the future of the Gaming Industry?
- How did you get into your role?
- What kind of skills do you use every day?
- What will the gaming industry look like in the future?
- What is the best thing about your job?
- How much money could I expect to earn?
- What is the best opportunity you have had in your job?
